

## SOMAH is the nation's largest investment in low-income residential solar for tenants

*The SOMAH Program offers*

**Financial incentives** that substantially cover the costs of solar installations

**Savings** on energy bills for your common area and tenant loads

**Long-term value** added to your multifamily affordable housing property

**Free support services** to assist you throughout your solar project

*Connect with a SOMAH representative*

# SOMAH

# Bring the power of solar energy and its benefits to your multifamily affordable housing property

The **Solar on Multifamily Affordable Housing (SOMAH)** Program believes all California households should have equal access to solar energy, regardless of their income.

## Having solar means:

- ✓ lower utility bills
- ✓ better housing security
- ✓ cleaner environment

## About SOMAH:

- A billion-dollar incentive program to install solar electricity on multifamily affordable housing.
- Delivering clean energy and credits on energy bills to hundreds of thousands of California's lower-income residents.
- Funded by greenhouse gas auction proceeds to benefit some of the state's most climate-impacted people.

SOMAH is managed by the SOMAH Program Administration team under the auspices of the California Public Utilities Commission.
