

## Certification of Compliance with SOMAH Performance Requirements for Third-Party Owned Systems

Complete the document and sign below. Submit this form with the SOMAH Proof of Project Milestone. All third-party owned systems are required to provide operations, maintenance and monitoring services for the full term of the third-party ownership agreement. Additionally, third-party owned systems must include performance guarantees ensuring the systems will produce a minimum of 90% of the expected annual output (kWh) and provide financial compensation for any production shortfalls in a given year.

### List name and address of multi-family low income property:

Property Name:

Address:

### Please fill out the information required below:

Specify the contract terms below and indicate the page and section where this information can be found in the third-party ownership contract.

DC System Size	_____ kW	Page_____, Section_____
CEC-AC System Size	_____ kW	Page_____, Section_____
1 <sup>st</sup> Year Annual Production (as listed in the Solar Services Agreement)	_____ kW	Page_____, Section_____
Storage System Total Maximum Continuous Discharge Rate	_____ kW	Page_____, Section_____
Storage System Total Energy Capacity	_____ kW	Page_____, Section_____
PPA or Lease	<input type="checkbox"/> PPA <input type="checkbox"/> Lease	Page_____, Section_____
Third-Party Ownership Contract Term	_____ Months	Page_____, Section_____
PPA/Lease Rate	\$ _____ /kWh \$ _____ /month	Page_____, Section_____
PPA/Lease Rate Escalator	\$ _____ percent/year	Page_____, Section_____
