1. About SOMAH

1.1. PROGRAM ELIGIBILITY

Additional details and information about the SOMAH program can be found in the SOMAH Handbook. Any utility or community choice aggregation (CCA) customer in the Pacific Gas and Electric (PG&E), Southern California Edison (SCE), San Diego Gas & Electric (SDG&E), PacifiCorp or Liberty (the IOUs) territories who owns or manages a property meeting the criteria in SOMAH Handbook Section 2.2, General SOMAH Eligibility Guidelines, is eligible to install a solar energy system project and receive incentives from the SOMAH program. Eligible participants in the SOMAH program must be current electric distribution customers of the IOU or the CCA at the facility (project site) where the project will be installed. Municipal and publicly owned electric utility customers are not eligible to receive incentives from the SOMAH program.

2. PowerClerk

All SOMAH applications will be submitted through the online application portal, PowerClerk. PowerClerk stores application information and documents, shows what tasks need to be completed throughout the project’s lifecycle and manages project deadlines.

2.1. CREATING AN ACCOUNT

Please note that SOMAH uses PowerClerk’s v2 platform. If you have a previous PowerClerk account from a program using PowerClerk v1, such as MASH or CSI, you will need to establish a new PowerClerk account to access the application platform for the SOMAH program.

To create a PowerClerk account, use one of the links below for the web portals and click the “Register” link.

- calsomahliberty.powerclerk.com
- calsomahpge.powerclerk.com
- calsomahpacificorp.powerclerk.com
- calsomahsce.powerclerk.com
- calsomahsd.powerclerk.com

Complete the user information on the following page and click “Register.”
PowerClerk will then send a confirmation email with a link to confirm the user’s registration. Click the link in the email to finish setting up the account.

2.2. Generating Documents

Some of the required application documents can be generated in PowerClerk, while others will not be available for generation and must be completed independently. Additionally, not all documents will be complete when generated and may require the applicant to manually complete certain fields.

a. To generate a form, click the “Generate Document” button. The generated document will automatically download.

b. Review the generated document for accuracy. If any corrections need to be made, they should be corrected in PowerClerk and the document should be generated again. Reference Application Guide Section 7.2 for more information on Suspended Applications.

2.3. E-signatures

a. Several required documents throughout the application process can be electronically signed using DocuSign. Alternatively, an option will be to wet sign documents at each
step. PowerClerk is configured with DocuSign to ensure a seamless process for e-signatures at no cost, should the participant choose that option.

b. To request the required signatures using DocuSign, the applicant must first click the “Preview Document” button.

c. After the “Preview Document” button has been clicked, a copy of the document will populate and download automatically, showing an unsigned version of the form. Additionally, the “E-Signature Status” at the bottom of the page will change from “Not yet previewed” to “Ready for signature.”

d. After the “Request Signatures” button has been clicked, the “Ready for signature” text will change to “E-signature request sent” with the date and time the request was sent.
e. Each individual from whom a signature is required will receive an email from DocuSign with a link to the document. To sign the document, select the “Review Document” button in the email and follow the prompts to digitally sign the documents. As each person signs it, the text in PowerClerk will change to “Completed.”

3. Application Process

3.1. OVERVIEW: TRACK A & TRACK B

There are two tracks to apply for a SOMAH incentive: Track A and Track B. Both tracks provide fixed, upfront, capacity-based incentives for qualifying solar energy systems, using the expected performance-based buydown (EPBB) methodology. For more information about the EPBB methodology, reference Section 3.1, Expected Performance Based Buydown (EPBB) Incentives, of the SOMAH Handbook.

- **Track A** is intended for property owners who would like to receive technical assistance services from the SOMAH Program Administrator (SOMAH PA) to help assess the solar potential at their property.
- **Track B** is intended for property owners who do not require technical assistance to submit a project reservation and have identified an eligible contractor for their project.

There is no difference in funding between Tracks A and B. Track A earmarks the estimated incentive funding to allow for Upfront Technical Assistance. As a result, participants in Track A are required to obtain at least three bids from eligible SOMAH contractors. Projects will not be permitted to switch from Track A to Track B, or vice versa. If a project wishes to change tracks, the current application must be canceled, and a new application must be submitted.

**Track A Timeline:**

**Track B Timeline:**
By requesting Upfront Technical Assistance, the SOMAH PA will be able to provide the Host Customer with information regarding property eligibility and an eligible system size. Once the application has been submitted, funding for a project will be earmarked for a period of three months. To reserve these funds, a Reservation Request Package must be submitted prior to the end of the three-month period.

3.2. STANDARD TECHNICAL ASSISTANCE (TA)

Standard Technical Assistance is different from Upfront Technical Assistance, detailed above. Standard TA is available for all projects, regardless of the Track A/Track B status. Standard TA services include: energy efficiency, clean energy, project management, post application and financial technical assistance. Standard TA is available for both property owners and contractors. For more information, see SOMAH Handbook Section 1.3.1.2, Standard Technical Assistance Services. Standard TA does not have a direct impact on the incentive application timeline.

4. Applying for Track A

4.1. UPFRONT TECHNICAL ASSISTANCE

a. Log in to PowerClerk using the web portal for the appropriate utility (see Application Guide Section 2.1, Creating an Account, if you do not have a username and password).

b. On the landing page, look at the top of the page for the utility name to ensure the appropriate utility has been selected.

c. If the utility shown does not correspond with the servicing utility for the proposed project site, click the “Change Program” link and select the correct utility from the dropdown menu.
d. After confirming that the correct utility has been selected, click the “New Upfront Technical Assistance Request” button to proceed to the application form.

e. There will be a total of four pages that must be completed prior to submitting the application form. As each page is completed, the page number in the form header will turn green.

f. To move through the form, use the “Back” and “Next” buttons at the bottom of each page.

g. To submit the application, click the blue “Submit” button at the bottom of the “Program Information & Documentation” page. Supporting documentation does not need to be uploaded at this time.
h. If any required information has not been entered when the “Submit” button is pressed, a red section will appear at the bottom of the page, detailing all the necessary corrections that must be made prior to submitting the form.

i. Once the application has been submitted, the applicant will receive an email notification, letting them know that the Technical Assistance Request has been received. This notification will include the application number (XXX-SOMAH-#####), which can be used to reference the application in the future. The application status automatically changes from “Unsubmitted” to “Upfront Technical Assistance Request Submitted” with a successful submission.

4.1.1. Documentation
After the application has gone through an initial review, the assigned reviewer will send an email requesting the following supporting documentation if it has not been uploaded to PowerClerk already.

- Upfront Technical Assistance Interest Request
- Documentation of multifamily low-income housing eligibility
- Applicant must provide a copy of a recorded deed restriction, regulatory agreement or covenant that restricts the property to low-income residential housing
- Can either be located in a disadvantaged community (as identified by SOMAH) OR
- Covenant/restriction must show that at least 80% of property residents have incomes at or below 60% of the area median income (AMI) as determined by the Department of Housing & Community Development
- Must have at least 10 years guaranteeing affordability remaining on the term
- Properties with less than 10 years must extend affordability requirements
- Proof of a completed affordability extension from a state or local agency must be provided
- Cover Sheet for Multifamily Low-Income Housing Documentation (Appendix D)
- Letter of Authorization to Receive Customer Information or Act on a Customer’s Behalf (Appendix H)

Upon request, these documents will be required to move forward with Upfront Technical Assistance. The date in which the interest form is submitted will be the position to receive funding.

4.2. RESERVATION REQUEST PACKAGE (TRACK A)
FOR TRACK B, SEE APPLICATION GUIDE SECTION 5.1, RESERVATION REQUEST PACKAGE (TRACK B)

a. On the landing page, locate the application using the application number that was received after submitting the Technical Assistance form by sorting the project views or using the search bar.

b. Expand the application by selecting the green “+” button to the left of the application information.

c. To select the project, click the “View/Edit Project” button.

d. On the following page will be application information for the selected project. Each of the sections shown below can be expanded/contracted to show more or less information. Expand the “Available Forms” section by clicking anywhere on the section header.

e. “Reservation Request Package” will be listed under “Available Forms.” Select “Begin.”

f. The Reservation Request Form has seven pages that must be completed
prior to submitting. As each page is completed, the page number in the form header will turn green.

---

4.2.1. Required Documentation

- Completed Reservation Request form with signatures (Appendix M)
- List of addresses on site for Energy Savings Assistance program referral (Appendix I)
- Affidavit Ensuring 100% Tenant Economic Benefit (Appendix A)
- Multiple Bids
- VNEM Load Allocation Form (Appendix N)

4.2.2. Application Deposit

On Page 7 of the Reservation Request Form is a section that includes the required Application Deposit amount and a checkbox to acknowledge that it must be submitted. All projects with a system size that is greater than or equal to 10 kW CEC-AC require an Application Deposit to receive a Reservation Approval.

If the Application Deposit has not been submitted by the time the Reservation Request is reviewed, an invoice will be sent to the Applicant requesting the Application Deposit within 30 days.
5. Applying for Track B

5.1. RESERVATION REQUEST PACKAGE (TRACK B)

a. Log in to PowerClerk using the web portal for the appropriate utility (see Application Guide Section 2.1, Creating an Account, if you do not have a username and password).

b. On the landing page, look at the top of the page for the utility name to ensure the appropriate utility has been selected.

c. If the utility shown does not correspond with the servicing utility for the proposed project site, click the “Change Program” link and select the correct utility from the dropdown menu.

d. After confirming that the correct utility has been selected, click the “New Reservation Request Package” button and proceed to the application form.
e. The Reservation Request Form will have a total of seven pages that must be completed prior to submitting. As each page is completed, the page number in the form header will turn green.

f. Applicants will be able to move through the Reservation Request Form by using the “Back” and “Next” buttons at the bottom of each page.

g. To submit the application, click the blue “Submit” button at the bottom of the “Agreement & Documentation” page.

h. If any required information has not been entered when the “Submit” button is pressed, a red section will appear at the bottom of the page, detailing all the necessary corrections that must be made prior to submitting the form.

i. An approval or suspension notice will be sent once the application has been fully reviewed (in order of receipt). After the Reservation Request Package has been reviewed and approved, an approval notification that will be sent with information regarding the due dates for each of the remaining steps and reserved incentive amount. The application status automatically updates to “Reservation Request Submitted” upon successful submission.

5.1.1. Required Documentation

- ✔ Documentation of Multifamily Low-Income Housing Eligibility
- ✔ Cover Sheet for Multifamily Low-Income Housing Documentation (Appendix D)
- ✔ Letter of Authorization to Receive Customer Information or Act on a Customer’s Behalf (Appendix H)
- ✔ Completed Reservation Request Form with signatures (Appendix M)
- ✔ List of address on site for Energy Savings Assistance program referral (Appendix I)
- ✔ Affidavit Ensuring 100% Tenant Economic Benefit (Appendix A)
FOR FURTHER INSTRUCTION ON HOW TO USE THE E-SIGNATURE FEATURE THROUGH DOCUSIGN, SEE APPLICATION GUIDE SECTION 2.2.

5.1.2. Application Deposit

On Page 7 of the Reservation Request Form is a section that includes the required deposit amount and a checkbox to acknowledge that it must be submitted. All projects with a system size that is greater than or equal to 10 kW require an Application Deposit to receive a Reservation Approval.

If the Application Deposit has not been submitted by the time Reservation Request is reviewed, an invoice will be sent to the Applicant requesting the Application Deposit within 30 days.

6. Steps to Complete Tracks A & B

6.1. ENERGY EFFICIENCY COMPLIANCE MILESTONE

a. Log in to PowerClerk using the web portal for the appropriate utility (see Application Guide Section 2.1, Creating an Account, for links to the SOMAH utility portals) and locate the application.

b. Expand the application by selecting the green “+” button to the left of the application information. To select the project, click the “View/Edit Project” button.

c. Application information for the selected project will be on the following page. To proceed with the selected project and submit the Energy Efficiency Compliance Milestone, click the “Begin” button under “Available Forms.”

d. The Energy Efficiency Compliance Milestone will have two pages that must be completed prior to submitting.

e. If any required information has not been entered when the “Submit” button is pressed, a red section will appear at the bottom of the page, detailing all the necessary corrections that must be made prior to submitting the form.
f. Once the application has been submitted, the applicant will receive an email notification stating that the Energy Efficiency Compliance Milestone has been received.

g. An approval or suspension notice will be sent once the application has been fully reviewed (in order of receipt). After the application has been reviewed and approved, an approval notification will be sent with information regarding the due dates for each of the remaining steps and the maximum incentivized system rating. The application status automatically updates to “Energy Efficiency Compliance Milestone Submitted” upon successful submission.

6.1.1. Required Documentation

- Documentation of an on-site whole-building walkthrough energy audit at ASHRAE Level I or higher within the last three years OR proof of enrollment in a utility, regional network (REN), CCA program or federally provided whole-building multifamily energy efficiency program
- Whole-Building Audit Requirements Checklist (if applicable – Pathway 1)
- Solar Sizing Tool. See section 2.4.4, Solar Sizing Tool, of the SOMAH Handbook for more information.

6.2. PROOF OF PROJECT MILESTONE

a. Log in to PowerClerk using the web portal for the appropriate utility (see Application Guide Section 2.1, Creating an Account, for links to the SOMAH utility portals) and locate the application.

b. Expand the application by selecting the green “+” button to the left of the application information. To select the project, click the “View/Edit Project” button.

c. Application information for the selected project will be on the following page. Under available forms will be an option to being the Proof of Project Milestone. Select “Begin.”

d. The proof of Project Milestone will have a total of six pages that must be completed prior to submitting. Applicants will be able to move through the Energy Efficiency Compliance Milestone by using the “Back” and “Next” buttons at the bottom of each page.

e. To submit the application, click the blue “Submit” button at the bottom of the “Acknowledgment & Documentation” page.
f. If any required information has not been entered when the “Submit” button is pressed, a red section will appear at the bottom of the page, detailing all the necessary corrections.

g. Once the application has been submitted, the applicant will receive an email notification, letting them know that the Proof of Project Milestone has been received. An approval or suspension notice will be sent once the application has been fully reviewed (in order of receipt). The application status automatically updates to “Proof of Project Milestone Submitted” upon successful submission.

6.2.1. Required Documentation

- Copy of Executed Contract for System Purchase & Installation (Host Customer-owned systems only)
- Copy of Alternative System Ownership Agreement (third-party owned systems only)
- Certification of Compliance with SOMAH Performance Requirements for Third-Party Owned Systems (Appendix C, third-party owned systems only)
- VNEM Allocation Form (Appendix N, if changed from Reservation Request)

6.3. PROGRESS PAYMENT PATHWAY

The Progress Payment Pathway is an alternative payment option that allows for a partial incentive payment at an earlier milestone as opposed to SOMAH’s standard single payment option upon project completion. This benefit can reduce barriers to participation for those who face capital constraints with carrying the cost of a project until completion. This two-payment structure pays 60% of the total approved incentive upon proof of installation and the remaining of the total approved incentive once the PV system has received permission to operate by the utility and after approval of the final SOMAH Incentive Claim Milestone.

6.3.1. Eligibility

To be eligible for the Progress Payment Pathway, applicants must have received Proof of Project Milestone approval and be at least four months away from the Incentive Claim Milestone due date when the request is submitted. Complete a virtual walkthrough to confirm the system location and that the installation is mechanically complete. This virtual walkthrough will be conducted with a member of the SOMAH PA and an onsite contact. Mechanical completion, for the purposes of the progress payment, is defined as the point at which all solar PV equipment has been installed, including the net generation output (NGO) meter socket, and the system wiring has been completed.

6.3.2. Required Documentation

- Progress Payment Request form
- Affidavit Ensuring Tenant Education
- Supporting documentation for virtual walkthrough (if applicable)
- Electronic payment setup form (if applicable)
6.4. INCENTIVE CLAIM PACKAGE

a. Log in to PowerClerk using the web portal for the appropriate utility (see Application Guide Section 2.1, Creating an Account, if you do not have a username and password) and locate the application.

b. Expand the application by selecting the green “+” button to the left of the application information. To select the project, click the “View/Edit Project” button.

c. Application information for the selected project will be on the following page. Under available forms will be an option to begin the Incentive Claim Package. Select “Begin.”

d. The Incentive Claim Form will have a total of nine pages that must be completed prior to submitting.

![Incentive Claim Package](image)

e. On Page 9 are documents that must uploaded. Select the files from your computer by clicking the “Browse” button and then finding the appropriate file to submit.

f. To submit the application, click the blue “Submit” button at the bottom of the “Final Questions & Documentation” page.

g. If any required information has not been entered when the “Submit” button is pressed, a red section will appear at the bottom of the page, detailing all the necessary corrections that must be made prior to submitting the form.

h. Once the application has been submitted, the applicant will receive an email notification, letting them know that the Incentive Claim Form has been received. A notice will be sent once the package has been fully reviewed (in order of receipt). The application status automatically to “Incentive Claim Submitted” upon successful submission.

6.4.1. Required Documentation

- Incentive Claim Form with signatures ([Appendix F](#))
- VNEM Load Allocation Form ([Appendix N](#), if changed from Proof of Project Milestone)
- Affidavit Ensuring Tenant Education ([Appendix A](#))
- Job Training Affidavit ([Appendix G](#))
6.4.2. On-site Field Inspection

After the information and documentation included in the Incentive Claim Package has been approved, an on-site field inspection will be required. The SOMAH PA will contact the Host Customer to schedule the inspection at this point. It is recommended, but not required, that the Contractor attend the inspection. If neither the Contractor nor the Host Customer can be present, the Host Customer must give the inspector permission to conduct the inspection.

Key project components will be reviewed during the inspection and must show that the system has been installed in accordance with the information provided in the Incentive Claim Package. Variances in this information may result in a suspended application or an infraction or failure.

For detailed information, see SOMAH Handbook Section 4.6, Onsite Field Inspections.

6.4.3. Payment and Deposit Return

Upon final approval of the Incentive Claim Package and a completed on-site field inspection, the SOMAH PA will issue the incentive payment in approximately 30 days. Payment will be made to the Host Customer or a third party, as indicated on the Incentive Claim Form and will be mailed to the address provided.

Upon verification of the completed project and SOMAH incentive payment, the Application Deposit will be returned in full to the Host Customer, unless the SOMAH PA receives a written request from the Host Customer to return the Application Deposit to a third party. See Section 4.2.2.5, Application Deposit, of the SOMAH Handbook for more information on the Application Deposit.

7. Miscellaneous Procedures

7.1. SUSPENDED APPLICATIONS

If application information is missing or needs clarification, the application will be suspended, and an email will be sent to the application with details regarding the required corrections.

All suspended applications will have 20 days to submit required corrections or the application will be canceled.

a. To resubmit information for a suspended application, log on to PowerClerk and find the relevant application.

b. Click the “Continue” button to enter the form that requires corrections.
c. Correct all fields detailed in the suspension email and submit the form. If a submitted document requires corrections, there will be notes in the “Attachments” section describing what needs to be corrected.

7.2. DOCUMENT CORRECTIONS

7.2.1. PowerClerk-Generated Documents
- PowerClerk-generated documents may not be resubmitted with manual corrections (handwritten or typed over the original information), even if the changes are initialed by all parties.
  - If the rejected document(s) were generated by PowerClerk, the information must be corrected in PowerClerk.
  - Once all the necessary corrections have been made in PowerClerk, a new copy of the document(s) with updated information can be generated.
  - The updated document(s) must be signed by the required parties and resubmitted in PowerClerk.
  - A complete, legible copy of each document must be resubmitted. Partial submissions will not be accepted.

7.2.2. Other Required Documents
- If the rejected document(s) were not generated by PowerClerk (e.g., solar system purchase contract, power purchase agreement, VNEM allocation form), it is acceptable for the incorrect information to be crossed out, corrected and initialed by all parties.
  - If contract changes are made with an addendum, the addendum may be submitted.
  - The updated document(s) must be signed by the required parties and resubmitted in PowerClerk.
  - A complete, legible copy of each document must be resubmitted. Partial submissions will not be accepted.

7.3. TIME EXTENSIONS

Due date extensions are only available for the Incentive Claim Package and may be granted for periods of up to 180 days. To request an extension, submit a completed copy of the Extension Request Form (Appendix E) with any necessary documentation to the assigned reviewer.
7.4. CANCELED AND WITHDRAWN APPLICATIONS

Either the Host Customer or System Owner may withdraw from the project for any reason by providing written notice of withdrawal to the SOMAH PA.

In the event a party chooses to withdraw, the Host Customer will retain the rights to the Reservation and may preserve the Reservation and corresponding application number by submitting a new Reservation Request Package within 14 days of the written notification of withdrawal from the project from the System Owner or Host Customer. If a new Reservation Request Package is not submitted, the application will be canceled. Canceled or withdrawn applications will forfeit the Application Deposit and will not be reimbursed.

8. Additional Resources

8.1 HOW TO CONTACT THE SOMAH PA

SOMAH program website:
CalSOMAH.org

Telephone:
858-244-1177, Ext. 5

Primary Email:
contact@CalSOMAH.org

Other Related Emails:
Technical Assistance: techassist@calsomah.org
Workforce Development and Job Training: workforce@CalSOMAH.org
Tenant Education: tenants@CalSOMAH.org
Media: media@CalSOMAH.org

Mailing Address:
Attn: SOMAH Program
3980 Sherman Street, Suite 170
San Diego, CA 92110

*Address should be used for submission of application deposits only. No application documents will be accepted in hard copy format.

8.2. SOMAH DOCUMENT CHECKLIST

Click here to view the SOMAH Document Checklist.
This page is intentionally blank.
A. AFFIDAVIT ENSURING 100% TENANT ECONOMIC BENEFIT

Affidavit Ensuring 100% Tenant Economic Benefit

Affidavit Ensuring 100% of Economic Benefits of Solar Energy System Generation Allocated to Tenants through VNEM on a Monthly Basis for the Life of the System or 20 years, whichever is less.

By signing this affidavit, [Host Customer Name], with respect to the solar electric system project ("System") at [Property Name], located at [Project Site Address], which is partially funded by the Program Administrator for the Solar On Multifamily Affordable Housing ("SOMAH") Program under Application Number XXX-SOMAH-XXXX, certifies and declares under penalty of perjury under the laws of the State of California that each of the statements in the paragraphs below are complete, true, and correct.

1. Host Customer certifies that it will allocate at least 51% of the System's electric generation to tenants, allocate solar benefits through Virtual Net Energy Metering, and ensure tenants continue to receive the same portion of the System's electric generation on a monthly basis for the life of the system, or 20 years, whichever is less.

2. Host Customer certifies that it will exclude solar benefits (allocated through Virtual Net Energy Metering) from the project's utility allowance calculations in order to prevent the recapture and/or diminishment of tenant economic benefits from solar through rent and utility allowance adjustments related to the solar system.

3. Host Customer certifies that, for California Tax Credit Allocation Committee projects, it will not use the California Utility Allowance Calculator to recapture and/or diminish tenant economic benefits from solar.

4. Host Customer agrees that the SOMAH Program Administrator reserves the right to request further documentation that demonstrates that the benefits will be passed to the tenants as provided in this Affidavit.

Although it is not mandatory, the SOMAH PA also strongly encourages the Host Customer to compensate the tenants for performance guarantee shortfalls, either directly (e.g. rent reduction, direct check to tenant) or indirectly through common area improvements.

I declare under penalty of perjury, under the laws of the State of California, that all of the foregoing statements are true and correct.

Host Customer

Signature:
[Host Customer Name]
[Date]
Affidavit Ensuring Tenant Education

By signing this affidavit, [Host Customer Name], with respect to the solar electric system project (“System”) at [Project Site Address], which is partially funded by the Program Administrator for the Solar on Multifamily Affordable Housing Program (SOMAH) under Application Number [SOMAH Application Number], certifies and declares under penalty of perjury under the laws of the State of California that each of the statements in the paragraphs below are complete, true and correct.

1) Start date of construction:

2) The Host Customer provided SOMAH approved education materials to all tenants 30 days or fewer prior to the start of construction. Projects constructed prior to SOMAH Program launch refer to note below.*

3) The Host Customer provided such information by the following means:
   a. Direct delivery to residence OR
   b. Mailer sent via U.S. Postal Service
   And at least one or more of the following:
   a. Email Notification
   b. In-person meeting/workshop
   c. Other: ___________________________________________________________________

*Any projects that started construction prior to the SOMAH Program launch must meet the tenant education requirements post installation using the SOMAH approved tenant materials. Host Customers will be requested to provide additional documentation of the indicated means. Documentation must be provided and may include a forwarded email or campaign statistics (click and open rate) or a tenant workshop sign-in sheet.

4) The Host Customer provided such information in languages accessible to all tenants.

5) The Host Customer agrees that the SOMAH Program Administrator (PA) reserves the right to request further documentation that demonstrates that property owners have conducted tenant engagement.

By signing this Affidavit, I certify that I am authorized to sign this Affidavit on behalf of the Host Customer. I also declare under penalty of perjury, under the laws of the State of California, that all of the foregoing statements are true and correct.

C. CERTIFICATION OF COMPLIANCE WITH SOMAH PERFORMANCE REQUIREMENTS FOR THIRD-PARTY OWNED SYSTEMS

Certification of Compliance with SOMAH Performance Requirements for Third-Party Owned Systems

Complete the document and sign below. Submit this form with the SOMAH Proof of Project Milestone. All third-party owned systems are required to provide operations, maintenance and monitoring services for the full term of the third-party ownership agreement. Additionally, third-party owned systems must include performance guarantees ensuring the systems will produce a minimum of 90% of the expected annual output (kWh) as calculated by the EPBB calculator and provide financial compensation for any production shortfalls in a given year.

List name and address of multi-family low income property:

| Property Name: |  |
| Address: |  |

Please fill out the information required below:

Specify the contract terms below and indicate the page and section where this information can be found in the third-party ownership contract:

| CEC-AC System Size | _____ kW | Page____, Section___ |
| 1st Year Annual Production (per EPBB) | _____ kWh | Page____, Section___ |
| PPA or Lease: | ☐ PPA ☐ Lease | Page____, Section___ |
| Third-Party Ownership Contract Term | _____ Years | Page____, Section___ |
| PPA/Lease Rate | $_____/kWh | Page____, Section___ |
| | $_____/month |  |
| PPA/Lease Rate Escalator | $_____ percent/year | Page____, Section___ |

The undersigned declare under penalty of perjury under the laws of the State of California that the information provided on this form is accurate and true.

Solar on Multifamily Affordable Housing (SOMAH)  
Program Multifamily Low-Income Housing  
Documentation Cover Sheet

Complete the document and sign below. Submit this form with the SOMAH Reservation Request Package.

Property Name:  
Address:  
Number of Units:  

**Section I**

The property meets the SOMAH eligibility requirement under the following criteria:

1. The property is **financed** with one of the following:
   - Low income housing tax credits,
   - Tax exempt mortgage revenue bonds,
   - General obligation bonds, or
   - Local, state or federal loans or grants

   AND rents of the occupants who are lower-income households do not exceed those prescribed by deed restrictions or regulatory agreements pursuant to the terms of the financing or financial assistance.

   AND for which the following applies:

   - **Option A** 80% of property residents have incomes at or below 60% of the area median income as determined by the Department of Housing and Community Development
   - **Option B** The property is located in a disadvantaged community as identified by the California Environmental Protection Agency

**Section II**

Specify which of the following public entities or non-profit housing provider with authority to regulate affordable housing costs and/or rents the documentation comes from.

- California Tax Credit Allocation Committee (TCAC)
- California Debt Limit Allocation Committee (CDLAC)
- California Department of Housing and Community Development/ The California Housing Finance Agency (HCD/CALHF)
- U.S. Department of Housing and Urban Development (HUD)
If the documentation is not signed by both the customer of record and one of the public entities above or non-profit housing provider, please indicate evidence that exists that the relevant affordability requirements of PUC 2852 and Health and Safety Codes referenced in the CPUC code have been met for all units presented by the applicant as affordable under these code sections. Please submit related documentation to the Program Administrator.

1. Please indicate the compliance period in years for which the low income restriction is in effect.

Compliance Period Start Date:  
Compliance Period End Date:

2. Please indicate on which page of the documentation language exists that describes the compliance period.

Page:

3. Please indicate on which page of the documentation language exists that describes the rent restriction.

Page:

4. Section I, Option A only: Please indicate on which page of the documentation language exists that defines the 80% of low income households are at or below 60% Area Median Income (AMI).

Page:

5. Section I, Option B only: Please indicate the census tract number of the disadvantaged community where the property is located.

Census Tract Number:

Section III

The property meets the SOMAH eligibility requirement that the property is NOT subject to the requirements of any of the following U.S. Department of Housing and Urban Development (HUD) programs.

1. Project-based Section 8
   a. New Construction
   b. State Agency Financed
   c. Substantial Rehabilitation
   d. Section 202/8
   e. Rural Housing Services (RHS) Section 515/8
   f. Loan Management Set-Aside (LMSA)
   g. Property Disposition Set-Aside (PDSA)

2. Section 101 Rent Supplement

3. Section 202/162 Project Assistance Contract (PAC)
4. Section 202 Project Rental Assistance Contract (PRAC)
5. Section 202 Senior Preservation Rental Assistance Contracts (SPRAC)
6. Section 811 PRAC; Project Rental Assistance (PRA)
7. Section 236 H. Section 236 Rental Assistance Payments (RAP)
8. Section 221(d)(3) Below Market Interest Rate (BMIR)

Please acknowledge the SOMAH eligibility requirement of Section II regarding participation in HUD programs.

Job Training Affidavit

**Instructions:** Review all Solar on Multifamily Affordable Housing (SOMAH) job training requirement information in the SOMAH Handbook (Section 2.7), provide all requested information, and submit the completed and signed affidavit to the SOMAH Program Administrator. Both the contractor and the job trainee(s) need to complete and sign this affidavit.

**Workforce Partnership Requirement and Basic Agreement:** For each SOMAH project, the contractor agrees to hire the appropriate number of job trainees for a minimum number of hours based on system size, as outlined in the table below.

<table>
<thead>
<tr>
<th>System Size (CEC-AC)</th>
<th>Required Number of Job Trainees</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 kW – &lt; 50 kW</td>
<td>1 trainee and no less than 40 hours</td>
</tr>
<tr>
<td>50 kW – &lt; 100 kW</td>
<td>2 trainees and no less than 40 hours each trainee</td>
</tr>
<tr>
<td>100 kW and greater</td>
<td>2 trainees and no less than 80 hours each trainee</td>
</tr>
</tbody>
</table>

The trainee(s) may participate in the SOMAH project in a direct or support role, in the categories of PV installation and/or project design/project engineering. The work of the trainee(s) can be on or off the project site, but must be specific to the SOMAH project address. The contractor’s insurance must cover the job trainee(s), and the contractor agrees to pay the trainee at their entry level or temporary worker wage, or 1.4 times the city minimum wage where the SOMAH project is located, whichever is higher. The contractor is required to enter all SOMAH job training opportunities on the SOMAH Job Training Portal, with the exception of projects that begin construction prior to program launch.

**Eligible Trainees and Job Training Programs**

An eligible (qualified) job trainee is an individual who has completed the Job Trainee Intake Form (Appendix) and is either:

a. A temporary employee currently enrolled in an eligible job training program; or

b. A permanent employee who graduated from an eligible job training program within 12 months of the installation project; or

c. A tenant residing in the SOMAH property.

Eligibility as a job trainee lasts for one year beginning from the trainee’s first day of work on any SOMAH project.

Eligible job training programs include those offered by a California Community College or other PV-training programs offered to the public by local government workforce development programs, community non-profits, private enterprises, or the electrical workers union with 40+ hours of instructional and/or hands-on PV installation and design training.

**AUTHORIZATION TO: RECEIVE CUSTOMER INFORMATION OR ACT ON A CUSTOMER’S BEHALF**

1. **NAME**  
2. **TITLE [IF APPLICABLE]**

of  

**NAME OF CUSTOMER OF RECORD**

(Customer) have the following mailing address

**MAILING ADDRESS**

, and do hereby appoint

**MAILING ADDRESS**

**NAME OF THIRD PARTY**

**CITY**

**STATE**

**ZIP**

3. to act as my agent and consultant (Agent) for the listed account(s) and in the categories indicated below:

**ACCOUNTS INCLUDED IN THIS AUTHORIZATION:**

1. **SERVICE ADDRESS**

2. **SERVICE ADDRESS**

3. **SERVICE ADDRESS**

(For more than three accounts, please list additional accounts on a separate sheet and attach it to this form)

**INFORMATION, ACTS AND FUNCTIONS AUTHORIZED** – This authorization provides authority to the Agent. The Agent must thereafter provide specific written instructions/requests (e-mail is acceptable) about the particular account(s) before any information is released or action is taken. In certain instances, the requested act or function may result in cost to you, the customer. Requests for information may be limited to the most recent 12 month period.

I (Customer) authorize my Agent to act on my behalf to perform the following specific acts and functions (initial all applicable boxes):

1. Request and receive billing records, billing history and all meter usage data used for bill calculation for all of my account(s), as specified herein, regarding utility services furnished by the Utility.

2. Request and receive copies of correspondence in connection with my account(s) concerning (initial all that apply):

   a. Verification of rate, date of rate change, and related information;  
   b. Contracts and Service Agreements;  
   c. Previous or proposed issuance of adjustments/credits;  
   d. Other previously issued or unresolved/disputed billing adjustments.

3. Request investigation of my utility bill(s).

4. Request special metering, and the right to access interval usage and other metering data on my account(s).

5. Request rate analysis.

6. Request rate changes.

7. Request and receive verification of balances on my account(s) and discontinuance notices.

*The Utility will provide standard customer information without charge up to two times in a 12 month period per service account. After two requests in a year, I understand I may be responsible for charges that may be incurred to process this request.*

Revised 10/29/19  
Page 1 of 2
The following Letter of Authorization is for demonstration purposes only and may change at a later date.

AUTHORIZATION TO: RECEIVE CUSTOMER INFORMATION OR ACT ON A CUSTOMER’S BEHALF

I (CUSTOMER) AUTHORIZE THE RELEASE OF MY ACCOUNT INFORMATION AND AUTHORIZE MY AGENT TO ACT ON MY BEHALF ON THE FOLLOWING BASIS ² (initial one box only):

☐ One time authorization only (limited to a one-time request for information and/or the acts and functions specified above at the time of receipt of this Authorization).

☐ One year authorization - Requests for information and/or for the acts and functions specified above will be accepted and processed each time requested within the twelve month period from the date of execution of this Authorization.

☐ Authorization is given for the period commencing with the date of execution until 12/31/2022. (Limited in duration to three years from the date of execution.) Requests for information and/or for the acts and functions specified above will be accepted and processed each time requested within the authorization period specified herein.

RELEASE OF ACCOUNT INFORMATION:

The Utility will provide the information requested above, to the extent available, via any one of the following. My (Agent) preferred format is (check all that apply):

☐ Hard copy via US Mail (if applicable).

☐ Facsimile at this telephone number: 858-244-1178

☐ Electronic format via electronic mail (if applicable) to this e-mail address:

I (Customer), ________________, (print name of authorized signatory), declare under penalty of perjury under the laws of the State of California that I am authorized to execute this document on behalf of the Customer of Record listed at the top of this form and that I have authority to financially bind the Customer of Record. I further certify that my Agent has authority to act on my behalf and request the release of information for the accounts listed on this form and perform the specific acts and functions listed above. I understand the Utility reserves the right to verify any authorization request submitted before releasing information or taking any action on my behalf. I authorize the Utility to release the requested information on my account or facilities to the above Agent who is acting on my behalf regarding the matters listed above. I hereby release, hold harmless, and indemnify the Utility from any liability, claims, demands, causes of action, damages, or expenses resulting from: 1) any release of information to my Agent pursuant to this Authorization; 2) the unauthorized use of this information by my Agent; and 3) from any actions taken by my Agent pursuant to this Authorization, including rate changes. I understand that I may cancel this authorization at any time by submitting a written request. [This form must be signed by someone who has authority to financially bind the customer (for example, CFO of a company or City Manager of a municipality).]

K. MULTIPLE BID WAIVER

Multiple Bid Waiver

Background: Per the Solar On Multifamily Affordable Housing (SOMAH) Handbook, Section 4, Application Process for SOMAH Projects, and Section 4.4 Multiple Bid Requirement, projects that enter the program in Track A and receive upfront Technical Assistance are required to solicit multiple bids for their solar PV project. Projects that enter the program in Track B and do not receive upfront Technical Assistance may opt to solicit multiple bids, but are not required to do so.

By signing this affidavit, [Host Customer Name], with respect to the solar electric system project (“System”) at [Project Site Address], which is funded by the Program Administrator for the Solar on Multifamily Affordable Housing Program (SOMAH) under Application Number [XXX-SOMAH-XXXXX], certifies and declares under penalty of perjury under the laws of the State of California that each of the statements in the paragraphs below are complete, true and correct.

1) I have freely chosen to forego the bidding process.

2) I am aware that I have the option to solicit multiple bids from more than one contractor.

3) I am aware that the SOMAH program has resources available to assist in soliciting bids from eligible contractors.

By signing this Affidavit, I, [Host Customer Name], also declare under penalty of perjury, under the laws of the State of California, that all of the foregoing statements are true and correct.

[Date]
The SOMAH Program offers a Progress Payment Pathway (PPP) request option to receive 60% of the total reserved incentive once the system is installed and is mechanically complete, in advance of receiving permission to operate from the Utility. This option enables partial recoupment of the system and installation costs before the completion of the Utility interconnection process and the SOMAH application process.

An Applicant may submit the Progress Payment Pathway Request package after the SOMAH PA has issued the Proof of Project Milestone Approval, but no later than four months in advance of the Incentive Claim Milestone deadline. The Request Package must include:

1. A completed Progress Payment Request Form
2. A signed affidavit ensuring tenant education has been completed

The designated Payee in PowerClerk for the progress payment will carry over to the Incentive Claim Milestone as the payee for the final incentive payment as well. See SOMAH Handbook Section 4.6.1, Progress Payment Request Option for details.

The future final incentive payment will be calculated after the final SOMAH inspection and the Incentive Claim Milestone approval and will equate to the total reserved incentive minus the progress payment and any further reconciliations made to the incentivized system post SOMAH inspection.

### Attestation and Signatures

By signing this Progress Payment Request Form, the signatories below attest under penalty of perjury that they understand and agree to the following:

- The system is installed at the SOMAH project site as portrayed in the Progress Payment Request Package and all information listed on this form is true and accurate.
- The 18-month SOMAH reservation period remains the same for all SOMAH projects regardless of whether a progress payment was disbursed. Permission to Operate must be issued by the relevant Utility and an Incentive Claim Package must be submitted to the SOMAH PA by the Incentive Claim Milestone deadline.
- If the SOMAH application is cancelled or withdrawn due to reasons including, but not limited to: not meeting all program requirements or if the Incentive Claim Milestone Package is not submitted by the Incentive Claim Milestone deadline, the Payee shall return all SOMAH progress payment incentive funds within 30 days after the application has been cancelled or withdrawn (see SOMAH Handbook Section 4.7.4, Grounds for Incentive Payment Clawback or Reduction, for details).

# N. VNEM ALLOCATION FORMS

## Virtual Net Energy Metering

### Solar Generation Credit Allocation Request Form

**Owner/Operator Information** (as it appears on your monthly Pacific Power statement):
- Customer or Business Name
- Street Address
- City, State, ZIP
- Phone
- Email
- Name of Individual Completing the Form

### Credit Allocation Request Information

I/we request that all energy credits available as a result of the application of the standards and rules of Schedule NEMVS-139 be applied in the following percentages to the Quasi-Customer for bills for the locations and the common use area(s) of the Residential Complex meeting the terms set forth in Schedule NEMVS-139. I/we certify that an amount less than the fair allocation to the common area meters in accordance with the rules adopted by the California Public Utilities Commission in D.17-12-022.

#### Common Use / Tenant Percentage Split

\[
\text{Common Area} + \text{Tenants} = 100\%
\]

#### Generating Meter: (meter physically associated with the generation facility)

Please attach additional sheets with aggregated meter information if necessary.

Attached is/are (number of sheets) sheets extending the above to more Qualified Customers.

The total annual output in kWh of the Renewable Electric Generating Facility may be sized to offset part or all of the electrical requirements of the meters in this aggregate arrangement, but may not be sized to exceed those requirements.

Pacific Power reserves the right to request a participation contract that participating accounts conform with the definition of Residential Complex included in the NEMVS-139.

I/We represent that the forgoing is the true and correct allocation of the NEMVS-139 credits for this Residential Complex, and we understand that the aforementioned take effect on the first regularly scheduled monthly read date that is at least 30 days following receipt of the form by the Utility. Moreover, I understand that this allocation and subsequent reallocations will remain in effect for a minimum of twelve months.

Form 14-910
2/2010
2
Virtual Net Energy Metering For Multi-Tenant and Multi-Meter Properties (NEM-V and NEM-V-ST)  
Allocation Request Form

Designation of Unallocated Credit Due to Unit Vacancy

For unit vacancy

- If there is an Owner/Tenant agreement in place, the unallocated credit will be automatically directed to the owner's account as the customer of record

- If there is no Owner/Tenant agreement in place, the owner may designate in the table below either a Common Area Account or a Benefitting Account (that is not a Common Area Account) to receive the credit

<table>
<thead>
<tr>
<th>Benefitting Account (Common Area or non-Common Area) Address with Unit Number</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
</tr>
</tbody>
</table>

D. I represent that the foregoing is the percentage allocation of the generation credits that this company wants to take effect on the start of the next billing period that is at least 30 days following receipt of this form by SCE. Moreover, I understand that these allocations for the Benefitting Accounts shall remain in effect for a minimum of 12 months. If I request a change in the allocation percentages prior to the end of the 12-month period, I will not be charged for up to one change per Benefitting Account in each 12-month period. Subsequent changes to any account within the 12-month period will be charged at $7.50 per account.

I agree that SCE may from time to time release to the California Energy Commission and/or the California Public Utilities Commission information regarding the Owner/Operator’s name, the location of each Generating Facility, their capacities and operating characteristics, and Qualified Customer names and account numbers.

   ______________________________________________________________

   3. Business or Company Phone Number:

   ______________________________________________________________

   4. Name of Individual Filling out this Form:

   ______________________________________________________________

C. I request that all credits, available as a result of the application of the rates and terms of Schedule ________, (VNM-A, VNM-A-ST, and VNEM-SOMAH), be applied in the following percentages to the Qualified Customers responsible for bills for the locations and the common use area(s) of the complex, all meeting the terms set forth in Schedule VNM-A or VNM-A-ST or VNEM-SOMAH (as applicable), identified below:

Common Use / Tenant Percentage Split¹

\[
\text{Common Use} + \frac{\text{Common Use}}{\text{Tenants}} = 100\%
\]

¹ For VNM-A and VNM-ST the initial Owner-designated percentage split between common use and tenants will remain in effect for a minimum of five years.

D. I represent that the forgoing is the percentage allocation of the solar generation credits that this company wants to take effect on the first regularly scheduled monthly meter read date that is at least 15 days following receipt of this form by the Utility. Moreover, I understand that this allocation and subsequent reallocations shall remain in effect for a minimum of twelve months. I also understand that this company will not receive any feedback from SDG&E regarding how much of the credits were used by each Qualified Customer absent appropriate releases from each customer and a separate agreement with SDG&E.

(Signature) ___________________________ (Date) ___________________________
The Solar on Multifamily Affordable Housing (SOMAH) program provides financial incentives for installing photovoltaic (PV) energy systems on multifamily affordable housing. The program will deliver clean power and credits on energy bills to hundreds of thousands of California’s affordable housing residents. SOMAH’s unique, community-based approach ensures long-term, direct economic benefits for low-income households, helps catalyze the market for solar on multifamily housing and creates jobs.
